Features include:

- Geofences
- Driving Coaching
- Routes
- Idle time
- Unauthorized use
- Maintenance
- Diagnostic codes
- Alerts
- AI Dashcams

LinxCam – Ai Dash Camera

- Easy installation via 3M Mounting Bracket
- No Calibration Required
- Pairs with GPS tracking device
- Front and Rear facing cameras
- Live view streaming
- Pair Alerts with 20 second videos
- Events sent to the cloud automatically
- User-generated video option
- Infrared lights for night vision

Use
Cases:

Real-time Driver Coaching

Guarantee Driver Safety

Camera Generated Alerts – Driver Safety

Tailgating

This alert notifies of an ADAS event and triggers when vision-based, AI technology on the dash cam identifies an unsafe following distance.

Custom Video

This alert triggers when a camera user has pressed the button on the camera to record a custom video alert.

No Driver

This alert notifies of an ADAS event and triggers when vision-based AI technology on the dash cam identifies that there is nobody sitting in the driver's seat.

Potential Impact

This alert triggers when the camera has detected an unexpected impact to the vehicle or a potential collision.

Seatbelt Warning

This alert notifies of an ADAS event and triggers when vision-based AI technology on the dash cam identifies a driver not wearing a seatbelt.

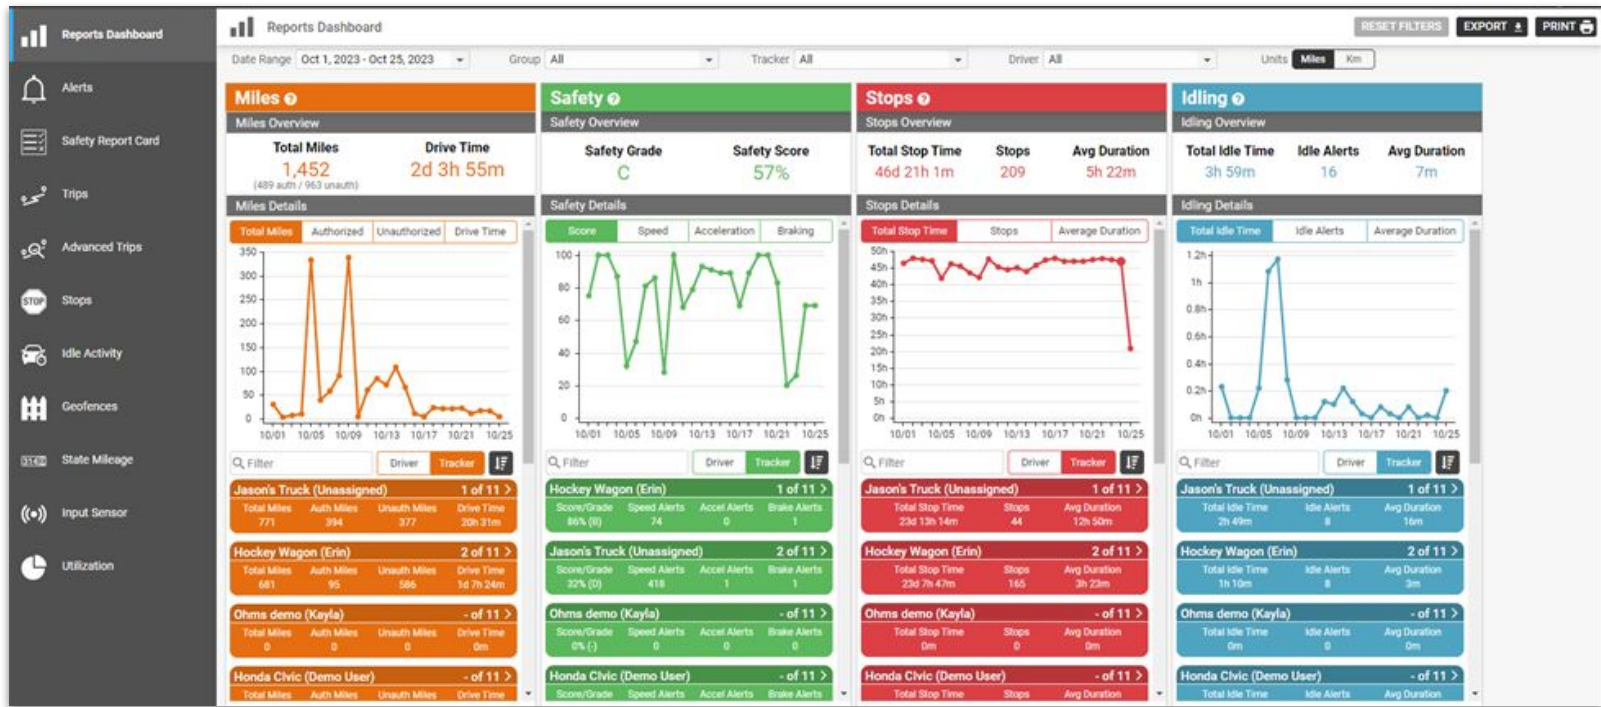

Phone In Use

This alert notifies of an ADAS event and triggers when vision-based AI technology on the dash cam identifies a driver using a phone.

Each AI Alert (Tailgating, No Driver, Seatbelt Warning, Phone In Use) is accompanied by a spoken phrase and audible chime in-cabin. A 20-second clip is automatically generated and stored in the cloud for 60 days.

Easy to use Reporting

Monitor driver safety and improve fleet operations!

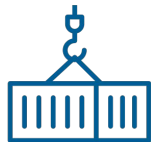

Vehicles aren't the only thing we track

Heavy Equipment

Track bulldozers, graders, scrapers, backhoes, cranes, excavators, mixers, and more.

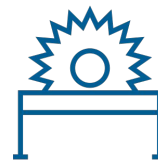

Containers & Trailers

Track shipping containers, flatbeds, lowboys, drop decks, utility trailers, and flatbeds.

Towables

Track light stacks, power generators, compressors, power packs, and more.

Power Equipment & Tools

Track handheld power tools, table top tools, chainsaws, and other equipment.

Light Equipment

Track bobcats, forklifts, plows, blowers, trimmers, jack hammers, and more.

Marine Vessels

Track personal boats, fishing vessels, barge containers, tugboats, and more.

Personal Recreation

Track utility vehicles, ATVs, jet skis, towable campers, and more.

Farm Equipment

Track combines, spreaders, sprayers, tractors, bailers, irrigation units, and more.

Implementation & Onboarding

- Dedicated Implementation resource for all your needs with a direct line
- Best practices and configuration based on experience delivering to your (similar) business and industry
- Success is a mutual goal!
